

## New Director in the Patent Department

The Spanish firm ABRIL ABOGADOS opens 2009 with the recruitment of Mr. Jesus Sahuquillo as head of the Patent Department.

His experience includes more than seven years as a professional expert on the field of mechanical and electronic patents, including software and robotic patents. He holds a degree in Electronic Engineering and Industrial Engineering from the University of Valencia.

After having worked in two important Intellectual Property Spanish firms, he has gained broad experience in the drafting, prosecution and defense of both national and international patents.

Ing. Sahuquillo now assumes the goal of developing the Patent Department in its different areas such as drafting and registration of inventions, providing technical opinions on patentability and infringement, intelligence and surveillance technology, transfer of technology and designs.

Undoubtedly his expertise and professionalism will consolidate one of the most important areas of the firm.
